The provided questions are extremely challenging, and the text is one of the best organized on the market, which makes it worthy of our list simply for its basic utility. Of course, there are many different prep books, tests and resources out there, and what's vital is that you do your research and choose the best resources for you. No book is perfect, however, and the downside to this one is that there's no real review of the systems, so it could be better when it comes to helping you with critical thinking and analysis. The questions are randomly arranged with equally random difficulty, so you'll get the real test experience. It is among the most concise and clear texts on the market in terms of explanation on Amazon Summary The NCLEX is the final hurdle in your path to becoming a licensed nurse, and should not be taken lightly. Those with incorrect or missing information will not be allowed to enter the testing center. You will not be allowed to bring any other personal items with you into the testing area. Even better, the chapters are easy to comprehend and aren't overly wordy, so I didn't feel drained after a session of study. The additional online materials are very similar to what's in the book, so their utility could be limited. As a result, I found this very helpful, allowing me to focus on specific details and concepts. Perhaps the biggest drawback to the Kaplan book is that the answer explanations that follow the practice problems are a bit simple and could include more explanation. If you wait any longer, you will be counted as a no-show and will have to not only reapply to take the exam but resubmit another payment as well. What Should I Bring? It is important to arrive at least 30 minutes early for your scheduled exam to ensure you have time check-in before the exam begins. However, with the proper resources and approach, you can crush this exam and start your career with confidence. A complete list of availability will be provided during registration. It is recommended to register as early as possible as seating and space may be limited at some locations. Special accommodations may be available in some locations for those that may not be able to test under normal circumstances.
